**Re: November 28, 2005 Compliance Report  
WC Docket Nos. 04-36; 05-196**

Ladies and Gentlemen:

As required by the Federal Communication Commission's ("FCC") June 3, 2005, Order, which established E911 requirements for IP-enabled service providers (the "*Order*"), Advantage Voice LLC ("Advantage Voice") submits this November 28, 2005, Compliance Letter. Previously, Advantage Voice submitted the August 10, 2005, Subscription Notification and Acknowledgement Status and Compliance Report of Advantage Voice LLC, which was supplemented on or about October 3, 2005. In its October 3, 2005, supplement, Advantage Voice informed the FCC that Advantage Voice had received the required affirmative acknowledgements from 100% of its subscribers.

Advantage Voice LLC is a VoIP service provider located at 1612 Westgate Circle, Suite 222, Brentwood, Tennessee 37027. Advantage Voice began offering services during the March/April timeframe of 2005.

Advantage Voice intends to fully comply with the *Order*. Since the issuance of the *Order*, Advantage Voice has worked with its underlying carrier with an aim towards full compliance. At this stage, Advantage Voice is unable to represent that it is in full compliance. It is Advantage Voice's understanding that its underlying carrier is working with Intrado to implement a fully compliant solution. Unfortunately, due to circumstances beyond its sole control, Advantage Voice is unable to declare full compliance. Advantage Voice will update this Compliance Letter in a timely manner.

Respectfully submitted,

Melvin J. Malone, Esq.
